Summary

Informatics Engineering student at the Electronic Engineering Polytechnic Institute of Surabaya (PENS) with a primary interest in UI/UX Design and additional interests in Front-End and Mobile Development. Familiar with Figma, wireframing, prototyping, and usability testing, as well as web technologies and Flutter. Experienced in developing application and web-based projects, collaborating in teams, and contributing to organizational activities. Eager to develop intuitive, functional, and user-centered digital products.

EDUCATION

Surabaya, Indonesia **Electronic Engineering Polytechnic Institute of Surabaya** **2024 - Now**

- Bachelor of Applied Science in Informatics Engineering
- Current GPA: 3.49 / 4.00

PROJECTS

AsseTrack **February 2026 – June 2026**

UI/UX Designer & Front-End Developer (Web and Mobile)

- Designed user interfaces and user experiences for web and mobile applications, focusing on intuitive navigation, usability, and consistent design.
- Created user flows, wireframes, and high-fidelity prototypes to translate product requirements into user-centered designs.
- Developed mobile application interfaces using Flutter based on the established UI/UX designs.
- Developed web application interfaces by implementing responsive layouts and interactive components.
- Collaborated with the backend development team to integrate application interfaces with backend services and ensure consistent functionality across platforms.

ADDITIONAL EXPERIENCE AND TRAINING

- **EEPIS Bidikmisi Organization (E-BIO) – PENS**
  Vice Chairperson of Media and Information Department | December 2025 – Present
- **Himpunan Mahasiswa Teknik Informatika – PENS**
  Staff of Media and Information Department
- **Training and Development**
